

Terrasoft® Sand bucket

What could be better for children than building castles and playing in the sand and muddling? The Terrasoft Sand bucket made of EPDM rubber can be used with appropriate chain or triangle suspension as a playful means of transport for sand or water games.

ADVANTAGES

- soft material
- suitable for public playgrounds
- low maintenance
- highly-resistant

APPLICATION

The Terrasoft Sand bucket is often installed in large playgrounds. Here, connected to a chain or a pulley, it transports sand, water or even a toy animal to the next higher level of the equipment. It is also often used in combination with sand dredgers that fill the sand bucket.

MAINTENANCE

When used on playgrounds, the following maintenance intervals must be observed:

Operational inspection: Check for wear or damage at quarterly intervals, check chain suspensions and swing seat, replace if necessary.

Main inspection: annual intensive inspection

Colours

-13x
anthracite

Supplied with: Sand bucket made of soft rubber

In addition, you will need: Fixing material, chain fastening (we recommend the use of stainless steel chains)
